# 1 Installation

## 1.1 Open Extensions Page

1. Open the extensions page via *Setup & Extensions*.
2. Open *Extensions* or use the “Tell-Me-functionality” to do this.
3. Search “Split by Picking Area”.

## 1.2 Installation of the Extension „Split by Picking Area“

1. Click on *Install*.
2. Accept the terms and conditions.
3. Confirm with “ok”.

## 2 Objectives of the App

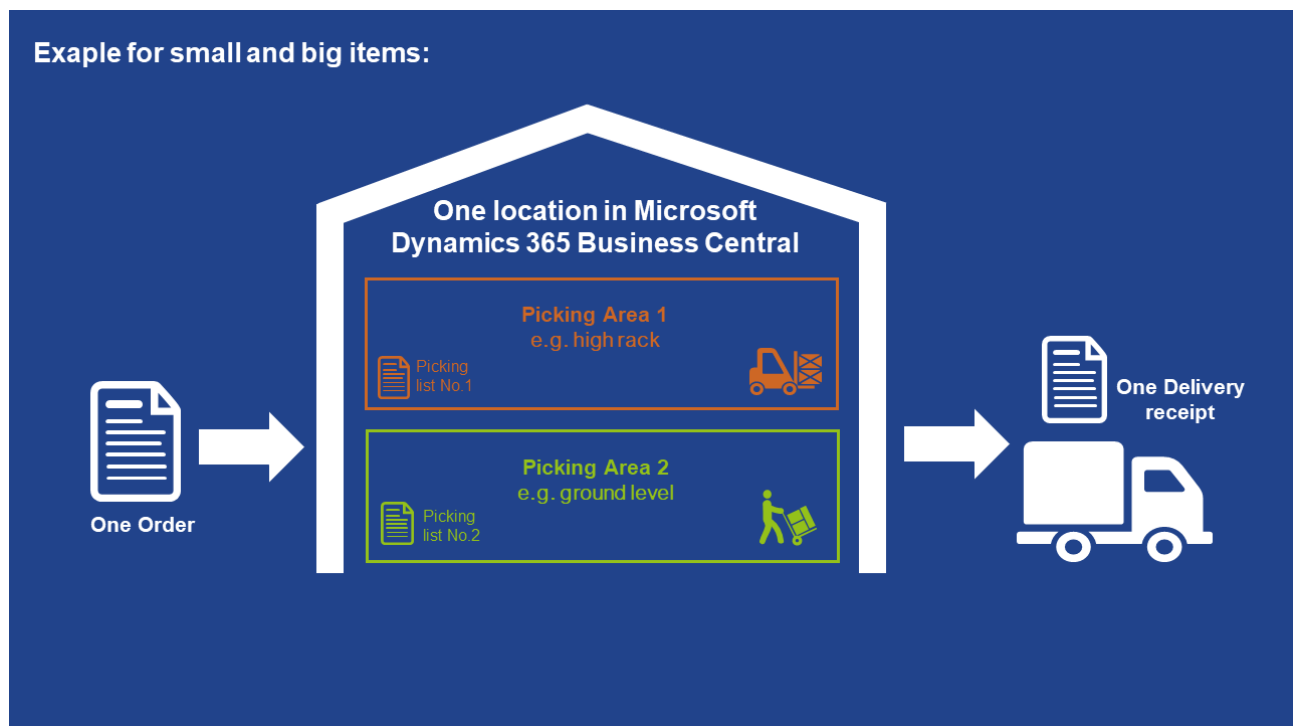

The “**Split by Picking Area**” app from **KUMAVISION** based on Microsoft Dynamics 365 Business Central supports you in the picking of articles in an optimum way.

The app suggests split your picking by different picking areas, even though you only have one location. Although you have different picks for one order you will receive one delivery receipt for your customer.

## 3 Application Examples

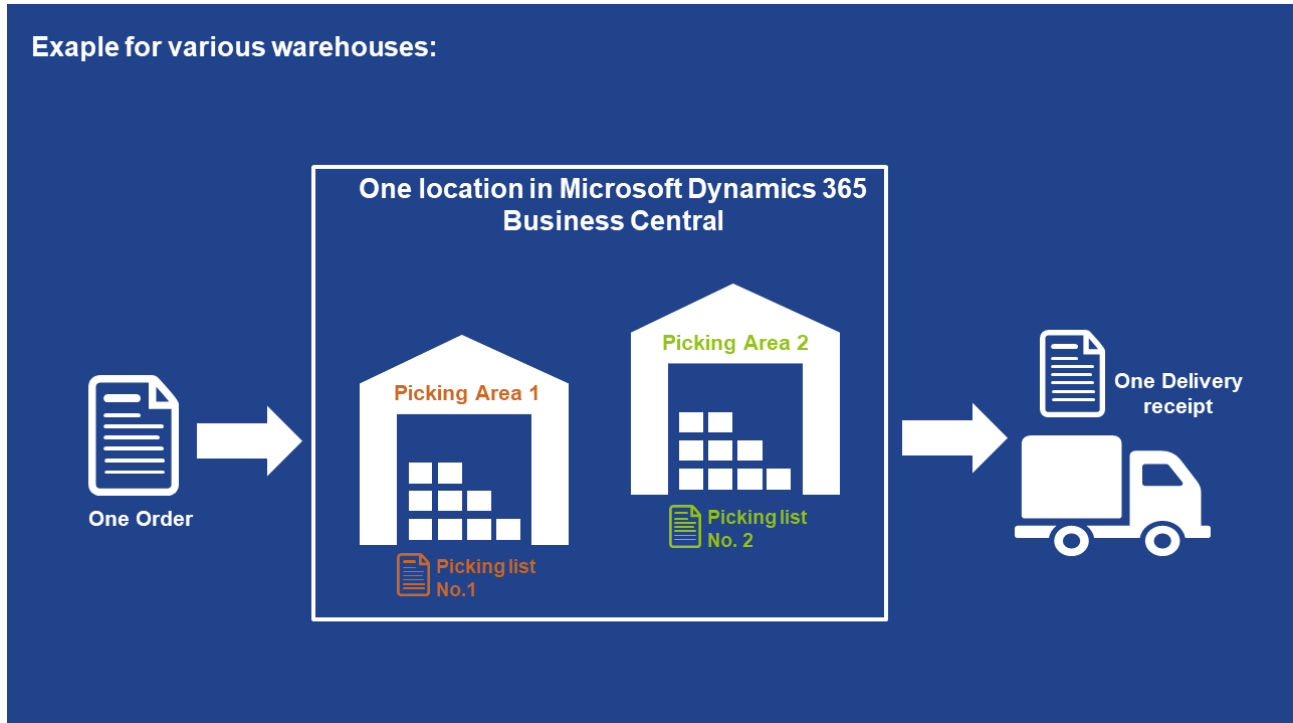

### 3.1 Example 1 „Small and big items“

Your articles are stocked in a location where your warehouse workers pick articles from ground level manually and articles from high rack by with stapler. Therefore you create two picking areas. When you will receive an order with articles mixed from high rack and ground level you will get two picking notes. This enables your warehouse workers to first complete all manual pickings and then all pickings from the high rack.

### 3.2 Example 2 „Various Warehouses“

Your main warehouse consists of various warehouses. The app suggests separate picking lists for each warehouse – instead of creating one picking list for all warehouses.

## 4 Process Description

### 4.1 Prepare location

Open the location you want to attach with picking areas. Turn the switch to *Split Picks by Picking Area* „on“. It is important to set the *Require Shipment* and *Require Pick* „on“. This setting is required for the use of the app „Split by Picking Area“.

Hint: The switch *Split Picks by Picking Area* is a field which comes in through the app. All other fields are standard fields in Business Central.

Location Card | Work Date: 4/6/2020

SPLIT · Split Warehouse

Directed Put-away and Pick	<input type="checkbox"/>	Cross-Dock Due Date Calc.	
Use ADCS	<input type="checkbox"/>	Split Picks By Picking Area	<input checked="" type="checkbox"/>

## 4.2 Create picking areas

Open picking area list. For each location you can define different picking areas. You must define the code (picking area) and the location code.

For example: Picking area ground level and picking area high rack.

Picking Area List | Work Date: 4/6/2020

Search + New Edit List Delete Open in Excel

Location Code ↑	Code ↑	Description
SPLIT	GROUND	Ground Level
SPLIT	HIGH	High Rack

## 4.3 Match location, bins and picking areas

Open the bins in the location where you want to setup picking areas. For each bin you can fill in the picking area code.

Location SPLIT | Work Date: 4/6/2020

## 4.4 Split by Picking Area Setup

In the Split by Picking Area Setup there are two fields. When they are activated the calculation runs automatically. When they are not activated you need to calculate manually.

These options can be helpful when there are performance issues due to numerous warehouse shipments or picks. To increase performance several of our customers set Auto. Calc. Number of Picks on Whse. Shipment List “deactivated” and the Auto Calc. Number of Picks on Whse. Shipment Card “activated”.

### Split by Picking Area Setup

Buy a new Package

**General**

Auto. Calc. Number of Picks on Whse...  Auto. Calc. Number of Picks on Whse...

App Version	2.0.6315.0	AAD Tenant ID	
		Environment Name	Sandbox

#### 4.4.1 Impact of deactivated „Auto. Calc. Number of Picks on Whse Shipment List“

The fields „No of Picks“ and „No of Registered picks“ are not shown when the first option of the setup is deactivated.

Warehouse Shipments | Work Date: 4/6/2020

No. ↓	Location Code	Assigned User ID	Sorting Method	Status	No of Picks	No of Registered Picks
SHPT00028	SPLIT		None	Open	not calculated	not calculated
SHPT00027	SPLIT		None	Released	not calculated	not calculated
SHPT00026	SPLIT		None	Released	not calculated	not calculated
SHPT00025	SPLIT		None	Released	not calculated	not calculated
SHPT00024	SPLIT		None	Released	not calculated	not calculated
SHPT00023	SPLIT		None	Open	not calculated	not calculated
SHPT00022	SPLIT		None	Released	not calculated	not calculated
SHPT00021	SPLIT		None	Released	not calculated	not calculated

## 5 Uninstall App

The following steps describe how to uninstall and unpublish the app.

### 5.1 Uninstall

#### 5.1.1 Open extensions page

1. Open the extensions page via *Setup & Extensions*.
2. Open *Extensions* or use the “Tell-Me-functionality” to do this.
3. Search “Split by Picking Area”.

#### 5.1.2 Uninstall the Extension „Split by Picking Area “

1. Select the extension “Split by Picking Area” by clicking on it.
2. To uninstall the extension, click the *Uninstall* button.
3. Confirm the *Uninstall* by “ok”.
